

Almost exactly a year ago we watched these pictures from Little Rock, Arkansas with self righteous condemnation and thanked God that it couldn't happen here. Then we sympathised with the Americans but we were grateful that it was them not us. ~~THE PRESIDENT EISENHOWER~~ MADE IT CLEAR THAT ~~THEIR~~ PROBLEM HURT THE WHOLE FREE WORLD. It couldn't happen here - but it has. ~~LOOKS AS THOUGH IT~~ SEEMS TO HAVE. In centres in many parts of Britain mass prejudice ~~has~~ shown itself, for the first time, in all its ugliness. Riots, Beatings, hooliganism. Now its our problem and we must solve it.....

190,000 coloured people live in Britain - less than  $\frac{1}{2}$  or 1% of the population and in the main they live happily. A little strange at first, they soon settle into living and working with their new neighbours. Working in harmony and peace. Good workers, honest decent people who've come here because this is the mother country of the Commonwealth. By right it is their second home. Now their faith in us and the Commonwealth has been shaken by violence.

Why did it happen? What must we do?....

We asked the Rev. Dr. Marcus James, Vicar of Mile End, an all white parish and Mr. George Rogers, Member of Parliament for Kensington North... (SOUND).

Is that the answer? ~~WAS ASKED~~ Dr. James what do you ~~THINK~~ think we must do?... (SOUND)

To live together in peace - These little children show the way.

It should be easy for all of us, old and young. ~~Singer Marty~~
